PROJECTS

FRONT END DEVELOPER **May 2025 - August 2025**

Barber Shop

Name of customer: Giang - Leader
Your team size: 5
HTML/CSS, Bootstrap, React.js, Nodejs, Antd, Socket, Kafka, Docker:
BarberShop is a website designed to manage appointment scheduling and sales for a barbershop. It enables users to access the platform, purchase haircare-related products, and conveniently book haircut appointments. The system also provides administrators with the ability to monitor products, orders, and appointment schedules, as well as to review and track the shop's overall revenue.
Tools: VSCode, Figma and Git, Docker
Link Project: https://github.com/VanGiang285/Barber-Shop.git

FRONT END DEVELOPER **May 2024 - July 2024**
